

Fylde Coast CPD updated training plan

2024-2025

Eligible staff

Advanced Nurse Practitioners	Y
Nurse Specialists	Y
Extended Role Practice Nurses	Y
Practice Nurses	Y
Nursing Partners	Y
Nurse Dispensers	Y
Nursing Associates (qualified)	Y
Podiatrists	Y
Physiotherapists	Y
Occupational Therapists	Y
Paramedics	Y
Dieticians	Y

Places are limited on all the courses advertised and places will be allocated on a first come first serve basis. We recommend that you register early to avoid disappointment.

New Smear Taker Training

Provided by Liverpool University

Course Name	Description	Learning Outcomes	Date & Location	Register your interest by clicking on the link below
New Smear Taker Course	Training for new smear takers will comprise theoretical learning followed by a period of practical training in practice.	<p>Topic 1: the NHS CSP</p> <p>Topic 2: background to cervical screening</p> <p>Topic 3: organisation of the NHS CSP</p> <p>Topic 4: equality of access to cervical screening</p> <p>Topic 5: cervical screening sample requests</p> <p>Topic 6: understanding the test results</p> <p>Topic 7: anatomy and physiology of the pelvic organs</p> <p>Topic 8: practical aspects of taking cervical samples</p>	<p>Tuesday 1st and Wednesday 2nd April 2025</p> <p>OR</p> <p>Wednesday 8th and Thursday 9th October 2025</p> <p>2-day course</p> <p>Holiday Inn Express Preston South, Reedfield Place, Walton Summit, Preston PR5 8AA</p>	<p>Please click HERE to register your interest in booking a place on this course.</p> <p>Please note: You will need to complete a separate application form after expressing your interest.</p>
Smear Mentor Training	This course will allow you to act as both a practice mentor OR an external assessor for a new smear taker		<p>The course is delivered via an E-Learning package where you will have access to PowerPoint presentations.</p> <p>At the end of the programme you will need to complete a short reflective assessment.</p>	<p>Please click HERE to register your interest in booking a place on this course.</p>

Study days delivered by Et al Training

Provided by Et al Training

Course Name	Description	Learning Outcomes	Date & Location	Register your interest by clicking on the link below
Hypertension Study Day	<p>An interactive and informal study day designed for the multi-professional primary care team.</p> <p>13% of the national population are currently diagnosed with hypertension, but the majority of BP and hypertension management does not need to hit the GP.</p> <p>This study day will look at the diagnosis of hypertension, the use of ambulatory & home monitoring, physiology of the normal management of blood pressure, causes & management of hypertension, how BP drugs affect the system, complicated and rarer causes of hypertension, with a look at some clinical cases.</p>	<ul style="list-style-type: none"> • Understand the importance of hypertension and relevance in prevention of CVD • Understand the principle of diagnosis and management in the primary care and the team's roles • Understand the rationale behind the National Clinical Guidelines for the management of hypertension in patients in primary care 	<p>Live online one-day course delivered over Zoom</p> <p>Thursday 30th January 2025</p> <p>Full day course (09:00-16:00)</p>	<p>Click HERE to book your place on this course</p> <p>**LIMITED SPACES**</p>

<p>Chronic Kidney Disease Study Day</p>	<p>In this study day we set the national and individual impact of CKD in perspective. The role of the tests for CKD are immortalised in the “TV style kidney chef” production where we turn blood into urine in front of your very eyes! The latest NICE Guidance for CKD is covered, so from diagnosis to the appropriate management principles for CKD in primary care is explained, with the very important aspect of when to refer included. Avoiding acute kidney injury (AKI) is a vital aspect of primary care management of hypertension, CKD and simply the elderly population. This study day demystifies this and offers practical solutions. The day is relaxed and interactive using demonstrations, case studies and totally focused on what people working in general practice need to know and do about kidneys.</p>	<p>At the end of the day you will understand:</p> <ul style="list-style-type: none"> • The importance of CKD & relevance in prevention of CVD. • The benefits & limitations of testing renal function. • The function of the normal kidney & what goes wrong in CKD. • The rationale behind National Clinical Guidelines for the management of CKD. 	<p>Live online one-day course delivered over Zoom</p> <p>Friday 15th November 2024</p> <p>Full day course (09:00-16:00)</p>	<p>Click HERE to book your place on this course</p> <p>**LIMITED SPACES**</p>
<p>Heart Failure</p>	<p>In this study day we begin by setting the national scene and clarify the diagnosis of heart failure which interestingly is not the underlying diagnosis! We then move on to the pathophysiology of heart failure, with a “sad story” which recounts the reactions from the body when the heart fails and lays out in a</p>	<p>At the end of the day you will understand</p> <ul style="list-style-type: none"> • The practice population at risk of developing heart failure 	<p>Live online one-day course delivered over Zoom</p> <p>Friday 7th March 2025</p> <p>Full day course (09:00-16:00)</p>	<p>Click HERE to book your place on this course</p> <p>**LIMITED SPACES**</p>

	<p>memorable non Powerpoint manner the systems which are involved in the body. This story then becomes the basis of understanding for the management of heart failure from the routine to the complex, where a “daddy dancing” approach to understanding biventricular pacing comes in handy. Keeping us focused on real life general practice we round off the day with some clinical cases to discuss the obscure and to consolidate the learning.</p>	<ul style="list-style-type: none">• The impact of heart failure on the individual and wider practice population• The importance of effective management for those with heart failure• The benefits and monitoring of pharmacological interventions available for treatment

Diabetic Foot Screen Training

Course Name	Description	Learning Outcomes	Date & Location	Register your interest by clicking on the link below
Diabetic Foot Screen Training	This training is open to all roles in primary care including HCA's and GPA's.	<ul style="list-style-type: none"> • NICE Guidelines • Why and how to perform a foot screen • Onward referring • There is an opportunity for people perform practice examinations and the trainer is able to sign off competency of the examination skill 	This course is delivered in person at Lytham Primary Care Centre Friday 18th October 2024 Please note that no food or refreshments will be provided. Car parking is available free of charge	Click HERE to book your place of this course

Dermatology for Nurses and AHPs

Provided by M&K update

Course Name	Description	Learning Outcomes	Date & Location	Register your interest by clicking on the link below
Dermatology for Nurses and AHPs	<p>A course designed to give a broader understanding of anatomy and physiology of the skin and giving ability in recognising lesions, lumps and bumps.</p>	<p>At the end of the course you will understand:</p> <ul style="list-style-type: none"> • Anatomy and physiology of the skin • Lesions, lumps and bumps • Terminology and skin assessment • Introduction to general dermatology and common conditions • Skin cancers - how to recognise them and understanding prevalence • Skin infections and infestations • Caring for older skin - preventing wounds and ulcers, medicated bandages • Paediatric skin • How emollients work • Soaps, moisturisers, emollients and shampoos, their functions and how to use them 	<p>This course is delivered in person at Lytham Primary Care Centre</p> <p>Tuesday 13th May 2025.</p> <p>Full day course (09:00-16:00)</p> <p>Please note that NO food or refreshments will be provided. Car parking is available free of charge</p>	<p>THIS COURSE IS NOW FULL</p> <p>Please email Jenny.cole4@nhs.net to be added to the waitlist</p>

Pit Stop Diabetes Training

Provided by Pit Stop

*If you need advice on which Diabetes course would be best for your role please contact admin@pitstopdiabetes.co.uk.

Course Name	Description	Learning Outcomes	Date & Location	Register your interest by clicking on the link below
1-day HCA PITstop-Diabetes Foundation Course for Primary Care	<p>This 1-day diabetes course focuses on preparing non-registered practitioners to get involved in both the prediabetes and diabetes pathways. They will gain an understanding of the care pathways for people with prediabetes and type 2 diabetes, the screening tasks involved and key lifestyle messages to help support people achieve their individual goals.</p> <p>Suitable for</p> <ul style="list-style-type: none"> • Non-registered practitioners including Healthcare Assistants and Assistant Practitioners • Nursing Associates • You will need find a mentor in your practice and work with them to achieve relevant-to-role HCA PITstop competencies 	<p>Programme Summary</p> <ul style="list-style-type: none"> • Care pathways for high risk and type 2 diabetes, including the Diabetes Prevention Programme and structured education programmes for type 2 diabetes • Screening tests associated with the annual reviews (including foot assessment and recording risk) • How to maintain the Practice 'diabetes box' containing blood glucose/ketone monitoring equipment and hypoglycaemia treatment • Key lifestyle messages <p>Exploring the scope of practice of HCAs in diabetes care and the competency assessment/mentorship requirements.</p>	<p>Courses are currently being delivered live, online. Duration 6.5 hours</p> <p>Current dates available:</p> <ul style="list-style-type: none"> • Wednesday 2nd October 2024 08:50–16:00 • Friday 28th March 2025 08:50-16:00 	<p>Click HERE to book your place on this course</p>

<p>1-day PrePITstop course</p>	<p>This 1-day multidisciplinary diabetes course takes the key messages from the popular 3-day PrePITstop course and delivers them in a 6.5-hour programme. It focuses on the core diabetes services and care provision for people with type 2 diabetes and prediabetes and emergency management for people with type 1 diabetes. It is aimed at healthcare professionals working in primary care who want to work as a team to improve diabetes services and patient outcomes using structured care pathways.</p>	<p>Programme summary</p> <ul style="list-style-type: none">• Classification and accurate diagnosis• Diabetes screening for at risk groups• Day to day living choices• Encouraging referrals to the Diabetes Prevention Programme and Structured Education• The oral diabetes medication pathway and related subjects (DVLA, hypoglycaemia, monitoring, concordance, individual target setting)• Managing illness• The provision of essential diabetes care using structured care pathways• Cardiovascular disease prevention, including blood pressure, lipid and kidney management• The foot assessment, foot advice and appropriate referral	<p>Courses are currently being delivered live, online. Duration 6.5 hours</p> <p>Current dates available:</p> <ul style="list-style-type: none">• Tuesday 1st October 2024 08:50-16:00• Tuesday 4th March 2025 08:50-16:00• Thursday 26th June 2025 08:50-16:00	<p>Click HERE to book your place on this course</p>
---------------------------------------	---	---	---	---

<p>3-day PrePITstop-Foundation Course</p>	<p>This 3-day multidisciplinary diabetes foundation course focuses on the core diabetes services and care provision for people with type 2 diabetes and prediabetes and emergency management for people with type 1 diabetes. It is aimed at healthcare professionals working in primary care who want to work as a team to improve diabetes services and patient outcomes using structured care pathways.</p>	<p>Programme summary</p> <ul style="list-style-type: none">• Classification and accurate diagnosis• Diabetes screening for at risk groups• Day to day living choices• Encouraging referrals to the Diabetes Prevention Programme and Structured Education• The oral diabetes medication pathway and related subjects (DVLA, hypoglycaemia, monitoring, concordance, individual target setting)• Managing illness• The provision of essential diabetes care using structured care pathways• Cardiovascular disease prevention, including blood pressure, lipid and kidney management• Eye screening and diabetes eye complications• Emotional and mental health• The foot assessment, foot advice and appropriate referral• Preconceptual counselling and family planning advice (self-directed learning)• Case studies: putting it into practice• Use of audit to improve outcomes	<p>Courses are currently being delivered live, online. Duration 19.5 hours over 3 days.</p> <p>You MUST be available to attend all 3 dates of the course cohort</p> <p>Current dates available:</p> <p><u>Course cohort – option 2</u> Monday 18th November 2024 Tuesday 19th November 2024 Tuesday 26th November 2024 08:50-16:00 each day</p> <p><u>Course cohort – option 3</u> Thursday 9th January 2025 Friday 10th January 2025 Friday 17th January 2025 08:50-16:00 each day</p> <p><u>Course cohort – option 4</u> Monday 3rd February 2025 Tuesday 4th February 2025 Monday 10th February 2025 08:50-16:00 each day</p> <p><u>Course cohort – option 5</u> Tuesday 11th March 2025 Wednesday 12th March 2025 Wednesday 19th March 2025 08:50-16:00 each day</p>	<p>Click HERE to book your place on this course</p>
--	--	--	---	---

<p>PITstop: 2.5-day-Programme for Injectable Therapies Course</p>	<p>This popular, practical 2.5-day advanced course gives multi-disciplinary, practice teams the resources to work towards enhanced diabetes service provision for injectable initiation (type 2 diabetes only).</p> <p>We recommend PITstop students seek mentorship after attending the course, to ensure they embed the skill safely in clinical practice. Please identify someone in your practice who could fulfil this role. The supervisor/mentor needs to be a practitioner who has (ideally) completed an accredited course <u>AND</u> they are actively initiating and titrating insulin and GLP-1s. So this could be a GP, pharmacists, ACP or DSN.</p> <p>Please Note: This course is suitable for Practitioners working at an advanced level who are already experienced in providing a diabetes service. Ideally having attended a foundation level diabetes course or can provide evidence of self-directed learning, focusing on the oral diabetes medication pathway.</p>	<p>Programme summary</p> <ul style="list-style-type: none">• Revision of diabetes oral medications• GLP-1 Agonists, including initiation using a structured care pathway• Insulin: building the profile• Injection technique• Device workshop• Detective work at review appointments focusing on injectables• Insulin safety (self-directed learning)• When is insulin indicated?• Working through the PITstop insulin pathway to assess for insulin, initiate an appropriate insulin regimen and support the patient for the first 6-months: a case study approach• Changing insulin regimens• Dietary considerations and insulin, including minimising weight gain• Decisions about injectable therapies: a case study approach	<p>Courses are currently being delivered live, online. Duration 17.5 hours over 2.5 days. The first two days are held together and the half-day follow-up is approximately 2 months later.</p> <p>You MUST be available to attend all 2.5 dates of the course cohort</p> <p>Current dates available: <u>Course cohort – option 1</u> Thursday 5th December 2024 Friday 6th December 2024 Thursday 6th February 2025 Day 1 & 2: 08:50-16:00 Day 3: 08:50-13:30</p> <p><u>Course cohort – option 2</u> Wednesday 22nd January 2025 Thursday 23rd January 2025 Thursday 6th March 2025 Day 1 & 2: 08:50-16:00 Day 3: 08:50-13:30</p> <p><u>Course cohort – option 3</u> Tuesday 18th February 2025, Wednesday 19th February 2025 & Friday 21st March 2025 Day 1 & 2: 08:50-16:00 Day 3: 08:50-13:30</p> <p><u>Course cohort – option 4</u> Monday 17th March 2025 Tuesday 18th March 2025 Tuesday 29th April 2025 Day 1 & 2: 08:50-16:00 Day 3: 08:50-13:30</p>	<p>Click HERE to book your place on this course</p>

<p>Individual CPD Requests</p>	<p>I am pleased to be able to confirm that the application process for funding for individual CPD requests has been re-opened.</p> <p>We have a <i>small</i> pot of funding available for individual professional development opportunities that have not been covered in our at scale offering above. We are inviting all <u>eligible professional groups ONLY</u> to submit an application for funding a specific course or programme to support your professional development in line with your personal development plan and/or practice/PCN service needs.</p> <p>You can apply for funding to cover the cost of training you would like to attend, or you can claim back the cost of training you have already undertaken (cannot claim for anything started before April 2023).</p> <p>Please note: if we receive requests for funding greater than the value of the pot of funding available then we will offer a relative proportion of funding to everyone so we can support as many of the applications as possible. In this instance, the decision on what is funded and how much is allocated will be confirmed by the Board.</p> <p>This link will close once the funding has been exhausted. You will be notified of the outcome of your training request via email within one week of applying.</p>	<p>Click HERE to express your interest in undertaking a bespoke training course</p>
