

Nursing Associate Apprenticeship and Nursing Apprenticeship Uniforms for External Placements

Uniforms are required particularly in external placements to help patients/service users and other staff identify learners as apprentices. In some settings learners will not be able to undertake a placement if they do not have a suitable uniform. Please find instructions below that we have been advised to share with employers within Lancashire and South Cumbria applying for a Nursing Associate Apprenticeship and/or Nursing Apprenticeship.

You do not need to use the supplier that is detailed within this document, this detail is just provided as an option/example to help outline the items required.

It is strongly advised your learner/s has a uniform in time for them starting the programme, to avoid any risk to accessing external placements and learners attend university days in their uniform.

The Training Hub do not finance or submit uniform requests. Uniform orders have to be completed by the employer.

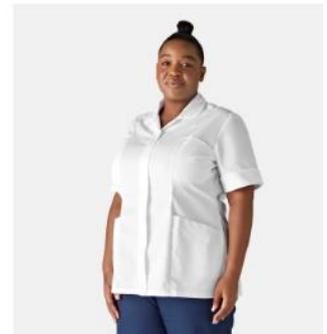

Nursing Associate Apprentice Uniform

White Tunics and Navy Trousers.

Tunic to have 'Student Nursing Associate' embroidered in Navy.

Please DO NOT include any other identifiers, such as practice name, to keep generic for external placements. We do not advise which side of the tunic this is to be embroidered on.

Epaulettes for second year (Navy).

LSCFT have provided the following details of the supplier they use which may be useful:

Supplier: <https://www.alexandra.co.uk/> t: +44(0) 333 600 1111 email customercare@alexandra.co.uk
NEW ORDER requests/queries are to be submitted to Orders@alexandra.co.uk

The codes on the website we use are below in the table. Each tunic has "STUDENT NURSING ASSOCIATE" embroidered in navy (The code we use may be different to the code you use so you will need to liaise with the supplier for that).

Uniform Codes	
Nursing Associate Female Tunic	NF190WH
Nursing Associate Male Tunic	H572WH
Embroidery	EMBROID2
